JUNIPERUS COMMUNIS KIYONOI
Natural Shape Without Shearing (See page 9)

TO THE TRADE

Crichton, Ala.

Oct. 1, 1930.

The exceedingly dry summer which we have had is a blessing in disguise to the buyers of Our Nursery Stock. Because our field plants did not put on much height we are offering most of them at last year sizes and prices, but they are much more compact and fuller specimen. Even most of those bedding plants which we watered did not put on as much height as usual but they are stockier than ever before, and our prices are as low as consistent for the quality stock we offer together with best possible service.

We are now going through a critical readjustment period and everybody is afraid to invest, not knowing what is ahead of us, but judging from the increase of savings with banks and strong financial positions of our leading industries, present depression is bound to be a temporary one. Sales of nursery stock of coming season may be somewhat slower than we like it to be, but remember that this is the richest country in the world and the public is just now waking up to beautify their home grounds. Small lining out stock planted now will not be real specimen for two or three years when we should get full benefit of our National Advertising Campaign. Do not neglect to anticipate your future needs because of present hardships for only far sighted people who have faith in this business and in this country can achieve real success.

Let us forget petty competitions and cut-throat prices which will lead us to nothing but ruination. Let us exercise more care in selection of better varieties in proper assortment to fit our particular needs, to which end I will be pleased to render my very best service, and broaden the use of nursery stock by constructive advertisements and real service to the public so that every one of us will share the full benefit thereby.

With deepest gratitude to you who have supported our business so loyally and with renewed assurance that each and every one of your orders will be highly appreciated and will receive my best personal attention.

Yours very truly,

T. KIYONO.

TERMS AND CONDITION OF SALES

Prices. 5, 50 and 500 of same variety and size at 10, 100 and 1000 rates respectively. Where less than 25 of a kind ordered for plants quoted at 100, rate, please add 25%.

Terms of Payment—Cash with order, from unknown people or those who prefer to earn discount. When cash with order, we make the discount 3% and boxing free, which means total earning of about 10%.

For charge accounts, our term is 60 days net, boxing at cost. New accounts opened only upon receipt of trade references, allowing time for investigation.

Transportation. Please state whether you want your shipments by parcel post, express or freight. When no instructions are given, we will use our best judgment in selecting best method of shipments. We make no charge for delivery to railroad station but our responsibility ceases when goods are turned over to carrier and risk and cost of transportation belong to purchaser.

Shipping Season. With ordinary weather conditions, from first of November to fifteenth of April.

Claim. If we made any mistakes or any reason to complain, please write immediately upon receipt of goods and we will be pleased to adjust the matter.

Condition of Sales. We accept all orders upon condition that they shall be void should any injury befall stock from causes over which we have no control.

LINING OUT CONIFEROUS EVERGREENS

JUNIOR SPECIMEN PLANTS

Baker's 15-18 inch	Spiny Greek 10-12 inch	Pfitzer 15-18 inch	Berckman's Golden 10-12 inch
------------------------------	----------------------------------	------------------------------	--

Plants under this heading will be dug bare roots, saving almost entire root system. Puddled immediately so that you will receive plants with original moisture on roots.

Consideration of price is an important item when competition is strong, but do not let only lower prices blind you because almost all our lining out size plants were rooted in the fall and transplanted in early spring, giving them plenty room to develop full root system and stocky tops, **for an entire growing season** and entirely different plants from summer rooted cuttings transplanted in the late fall, merely to call them as once transplanted or potted, or those plants grown in crowded flats to let them get height but slender and "leggy". We give 20 square inches (about 4½ inch square) for each bedded plant, while most other nurseries allow them only 3 to 5 square inches.

Items marked with * and bold type letters are what we called "Junior Specimen Size" which can be shipped safely with puddled roots, yet large enough for lanscape works or general retail business because they are sturdy field grown, twice or more times transplanted stock.

Cedrus Deodara. The most beautiful stately specimen tree for the milder parts of United States. On account of entire seed failure last year, we are offering nothing but two-year-old plants which will stand outdoor planting with the exception of two smallest grades.

	Per 100	Per 1000
6-8 inch, transplanted.....	\$ 9.00	
8-10 inch, transplanted	12.00	
12-18 inch, 3-year transplanted.....	17.00	
*18-24 inch, 3-year transplanted.....	25.00	

Chamaecyparis Lawsoniana Alumni (Blue Lawson Cypress). Very blue lawson cypress of compact growth similar to *Arbovitae* in outline. Unlike from most of lawson cypress, this kind will transplant very easy. Our plants are from cuttings of extra blue good specimen.

6 inch, cuttings, once transplanted.....	8.00	70.00
6-8 inch, cuttings, once transplanted...	10.00	90.00
*8-12 inch, field grown, bushy.....	12.00	

Cunninghamia Lanceolata (Chinese Fir). Fast growing fir shaped tree, doing well in lower South. We are offering nothing but seedlings which make nicer shaped plants than cutting grown and our 15c size are nicely shaped plants.

4-6 inch, seedlings	6.00
6-8 inch, 2-year transplanted	9.00
8-12 inch, 2 year transplanted.....	15.00

Cupressus Arizonica (Arizona Cypress). Very fast growing bluish cypress which are valued in dryer parts of country, but not so desirable in more humid climate where lower branches turn brown.

6-8 inch, from seed beds	6.00
8-10 inch, from seed beds.....	8.00

Cupressus Sempervirens Pyramidalis (Italian Cypress). Well known, very slender columnar tree of very striking appearance. We offer this year only

those from cuttings, insuring absolute uniformity in shape.

	Per 100	Per 1000
6-8 inch, cuttings, once transplanted ...	10.00	

Juniperus Chinensis Albo Variegata (White Variegated Chinese Juniper). An excellent Juniper doing well in south as well as far north. Slow growing conical shaped plants with many creamy white tips and branchlets. Our plants have more variegations than most others.

3-4 inch, cuttings, once transplanted ...	12.00
4-6 inch, cuttings, once transplanted ...	17.00
6-8 inch, 2 year, once transplanted ...	25.00
*6-10 inch, field grown, bushy	35.00
*10-12 inch, field grown, bushy	45.00

Juniperus Chinensis Densa Glauca. Similar to above variety but with nothing but very deep blue color which will not turn brown in coldest winter. Much more compact grower than Silver Red Cedar and even deeper blue and every one who sees this plant at our nursery wants some but could not supply any until this year.

3-4 inch, cuttings, once transplanted ...	12.00
4-6 inch, cuttings, once transplanted ...	17.00
6-8 inch, 2-year, once transplanted	25.00

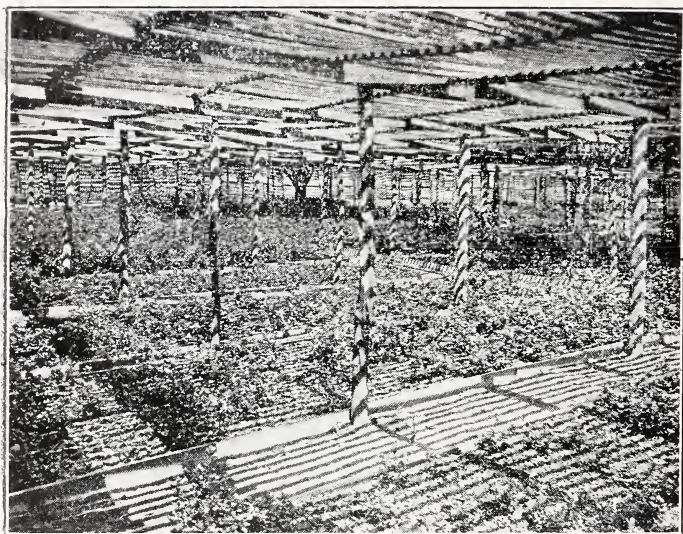

Juniperus Chinensis Japonica. Trailing Juniper with bluish scale-like foliage, doing well both in north and south.

4-6 inch, cuttings, once transplanted ...	10.00	90.00
6-8 inch, cuttings, 2-year	15.00	130.00

Juniperus Chinensis Masculata. An upright grower with blue-green foliage withstanding southern conditions well, and one of the best junipers for this section.

4-6 inch, cuttings, once transplanted ...	10.00
6-8 inch, cuttings, once transplanted ...	12.00

Juniperus Chinensis Pfitzeriana. One of the best low growing Juniper of wide

PART OF AZALEA HOUSE
adaptability, known too well for further
description.

	Per 100	Per 1000
4-6 inch, cuttings, once transplanted....	8.00	70.00
6-8 inch, cuttings, once transplanted....	12.00	110.00
6-8 inch, 2 year, bushy	15.00	140.00
8-10 inch, 2-year, bushy	17.50	
*10-12 inch, field grown, bushy	25.00	
*12-15 inch, field grown, bushy	35.00	

Juniperus Chinensis Sargenti. One of the best creeping Junipers, withstanding extreme of temperature.

4-6 inch, cuttings, once transplanted ... 15.00

Juniperus Communis Ashfordii. Similar to English Juniper but the top part of growth is more spreading.

	Per 100	Per 1000
6-8 inch, cuttings, once transplanted...	10.00	90.00
8-10 inch, cuttings, once transplanted...	12.00	110.00
*10-12 inch, field grown, bushy.....	20.00	
*12-18 inch, field grown, bushy.....	25.00	

Juniperus Communis Kiyonoi (Kiyono's English Juniper). Very compact and decidedly columnar growth with bluish leaves which assume plum color in winter. This was originated at this place a few years ago and every one of our offerings were propagated from single stock plant so that every one is absolutely alike, without shearing, feature which is very important with formal shaped plants.

4-6 inch, cuttings, once transplanted...	10.00	90.00
6-8 inch, cuttings, once transplanted...	12.00	110.00
*12-15 inch, field grown, compact.....	35.00	
*15-18 inch, field grown, compact.....	40.00	
*18-24 inch, field grown, compact.....	50.00	

Juniperus Communis Depressa (Canadian Juniper). Semi-erect Juniper of wide adaptability. There are many types but we offer plants grown by cuttings from specimen of real merit.

	Per 100	Per 1000
6-8 inch, cuttings, once transplanted...	8.00	70.00
8-10 inch, cuttings, once transplanted...	10.00	90.00
*12-15 inch, bushy, field grown.....	25.00	
*15-18 inch, field grown, bushy.....	35.00	

Juniperus Communis Depressa Plumosa (Andorra Juniper). New spreading Juniper of real merit; main beauty about this new comer is its winter coloring of purplish hue, so different from any other plants. Supply on market is very limited.

4-6 inch, cuttings, once transplanted...	13.00	120.00
6-8 inch, cuttings, once transplanted...	15.00	140.00
*10-15 inch, field grown, bushy	45.00	

Juniperus Excelsa Stricta (Spiny Greek Juniper). Slow growing compact Juniper valued highly for formal and foundation plantings, doing well both in south and north. All our plants are grown from cuttings from selected plants.

	Per 100	Per 1000
3-5 inch, cuttings, once transplanted....	10.00	90.00
5-8 inch, cuttings, 2-year-old.....	15.00	130.00
*8-10 inch, bushy, field grown.....	25.00	
*10-12 inch, bushy, field grown.....	30.00	
*12-15 inch, bushy, field grown.....	35.00	

Juniperus Japonica. This is not Creeping Juniper known as *Juniperus Chinensis Japonica*, but this one is upright grower with nothing but smooth scale like leaves, well adapted for rock gardens and foundation planting.

3-5 inch, cuttings, once transplanted....	12.00
5-7 inch, cuttings, once transplanted....	15.00

Juniperus Japonica Sylvestris (Juniperus Femina). Similar to *Juniperus Chinensis* but more irregular in outline with light green foliage of both types common to Junipers. Very hardy and specially valuable for the South.

6-8 inch, once transplanted	15.00
*12-15 inch, field grown, bushy.....	40.00
*15-18 inch, field grown, bushy.....	50.00

Juniperus Horizontalis Douglassi (Waukegan Juniper). Compact growing creeper with soft blue fine foliage in summer which turn purplish brown in winter.

4-6 inch, cuttings, once transplanted....	12.00
---	-------

Juniperus Procumbens (Creeping Juniper). A form of creeping Juniper with nothing but smooth leaves, never getting any taller than 12 inch above ground.

6-8 inch, cuttings, once transplanted....	12.00
---	-------

Juniperus Sabina (Savin Juniper). Slow growing semi-erect plants with dark

green foliage which will not turn brown in winter. Stand city conditions well.

Per 100 Per 1000

4-6 inch, cuttings, once transplanted... 10.00

Juniperus Sabina Variegated (Variegated Juniper). Identical with Sabin Juniper with much creamy white variegation which stand all our hot southern sun. Quite a novelty.

*8-12 inch, field grown, well filled 40.00

*12-15 inch, field grown, well filled 50.00

Juniperus Sabina von Ehron. Much faster grower than Sabina with rather irregular, spreading growth of graceful outline. Deep green all year around.

3-5 inch, cuttings, once transplanted... 12.00

5-7 inch, cuttings, once transplanted... 15.00

Juniperus Virginiana Glauca (Silver Red Cedar. Well known silver red cedar so well adapted in wide range of country. Our plants are grafted and stake trained.

*12-18 inch, field grown, B&B 80.00

*18-24 inch, field grown, B&B 100.00

Libocedrus Decurrens (Incense Cedar). A tall stately grower of majestic proportions, doing well in most part of this country, while its native home is California.

4-6 inch, 2-year, transplanted 10.00

6-8 inch, 2-year, transplanted 15.00

8-12 inch, 3-year, transplanted 17.50

Podocarpus Chinensis (Japanese Yew).

Dark green leaves of 1-3 inch by two inches long, with upright stems which can be pruned to any shape desired. They do well in full sun or very dark shade where nothing else will grow and extremely valuable for latter use. Only objection to this variety is of its slow growth, like many other Yews, but this

point becomes its virtue a few years after
planted against buildings.

	Per 100	Per 1000
4-6 inch, 2-year-old	4.00	30.00
6-8 inch, 2-year-old	6.00	50.00
8-12 inch, 2 and 3-year-old	10.00	90.00

Podocarpus Nagi. One of broadest leaved
conifer, looking more like a broad leaved
evergreen, and a specimen in any gar-
den will be a center of admiration and
curiosity. Not hardy except in lower
south. Very scarce.

6-8 inch, 2-year, seedlings	15.00
8-12 inch, 2-year, seedlings	17.50

Retinospora Ericcides. Leaves are some-
what similar to Squarossa but green in
color and compact, columnar, fast grow-
er.

6-8 inch, cuttings, once transplanted ...	10.00
8-10 inch, cuttings, once transplanted ...	12.00
10-12 inch, uttings, once transplanted ...	15.00
*12-15 inch, well filled plants	20.00

Retinospora Filifera (Thread Cypress).
Long string like drooping branches hold
thread like foliage of deep green color.
Very hardy and graceful plant.

4-6 inch, cuttings, once transplanted ...	8.00
6-8 inch, cuttings, once transplanted ...	10.00
*10-12 inch, field grown, compact	20.00

**Retinospora Pisifera Aurea (Golden Sa-
wara Cypress).** Bright golden foliage is
especially attractive in spring.

4-6 inch, cuttings, once transplanted ...	8.00	70.00
6-8 inch, cuttings, once transplanted ...	10.00	90.00
*10-15 inch, field grown, bushy	20.00	

**Retinospora Plumosa (Green Japanese Cy-
press).** All Retinospora we are listing
are hardy all along the Atlantic Coast
and Gulf States. Rather irregular out-
line of Retinospora are pleasing in

contrast with stiff outline of Arborvitae.

All our Retinosporas are from cuttings.

	Per 100	Per 1000
6-8 inch, cuttings, once transplanted....	7.00	60.00
8-10 inch, cuttings, once transplanted....	9.00	70.00
*10-12 inch, field grown, compact plants	20.00	

Retinospora Plumosa Argentea (White Tip Japan Cypress). Very compact dwarf grower well adapted for planting in pot, etc. New growth has white tip.

4-6 inch, cuttings, once transplanted....	7.50	65.00
---	------	-------

Retinospora Plumosa Aurea (Yellow Japan Cypress). Similar to Retinospora Plumosa but more compact and new growth is decided yellow.

4-6 inch, cuttings, once transplanted....	6.00	50.00
6-8 inch, cuttings, once transplanted....	8.00	70.00
8-10 inch, 2-year, bushy	12.00	
*10-15 inch, field grown, very compact	20.00	
*15-18 inch, field grown, very compact	25.00	

JUNIOR LIGUSTRUM

Retinospora Leptoclada. Feathery, compact round headed plant looks more like Rosedale Arborvitae but bluish green foliage will turn deep purplish bronze in winter.

	Per 100	Per 1000
4-6 inch, cuttings, once transplanted....	9.00	
6-8 inch, cuttings, once transplanted....	12.00	

Retinospora Squarossa Veitchi. Very pleasing silvery blue foliage of this plant makes very attractive with other dark green foliage plants.

4-6 inch, cuttings, once transplanted....	6.00	50.00
6-8 inch, cuttings, once transplanted....	8.00	70.00
8-10 inch, 2-year, bushy.....	12.00	
10-15 inch, 2-year, bushy	15.00	

Thuya Orientalis (Chinese Arborvitae).

These are from seed and not all alike but majority of them make pyramidal growth. Our 8-12 inch size two-year stock are suitable for under-stock, in grafting more valuable kinds.

6-8 inch, 2-year, from seed beds.....	3.00	25.00
8-12 inch, 2-year, from seed beds.....	5.00	40.00
*18-24 inch, selected field grown.....	20.00	
*2-3 feet, selected field grown.....	25.00	

Thuya Orientalis Aurea Conspicua. Decidedly upright grower of deep golden color.

4-6 inch, cuttings, once transplanted....	12.00
6-8 inch, cuttings, once transplanted....	15.00
8-10 inch, cuttings, once transplanted....	17.50

Thuya Orientalis Aurea Nana (Berckman's Golden). All our cuttings are from true dwarf Berckman's Golden, and absolutely true to type.

4-6 inch, cuttings, once transplanted....	9.00	80.00
6-8 inch, cuttings, once transplanted....	11.00	100.00
8-10 inch, 2-year	15.00	140.00
*10-12 inch, field grown, bushy.....	25.00	
*12-15 inch, field grown, bushy.....	35.00	

Thuya Orientalis Bakeri. Pleasing soft green color of pyramidal growth, re-

taining its color in summer and winter. The best pyramidal oriental arborvitae. Our last two sizes are almost like specimen, suitable for small landscape work.

	Per 100	Per 1000
4-6 inch, cuttings, once transplanted	8.00	70.00
6-8 inch, cuttings, once transplanted	10.00	90.00
8-10 inch, twice transplanted, 2-year	15.00	130.00
10-15 inch, twice transplanted, 2-year	17.00	
*12-15 inch, field grown, compact	20.00	
*15-18 inch, field grown, compact	25.00	

Thuya Orientalis Bonita. Very compact slow growing Arborvitae of most symmetrical shape. Well adapted to wide range of country and very popular.

6 inch, cuttings, once transplanted	8.00	70.00
6-8 inch, cuttings, once transplanted	10.00	90.00
8-10 inch, 2-year, bushy	15.00	
*10-12 inch, field grown, compact	25.00	

Thuya Orientalis Compacta. Compact growing Chinese Arborvitae of more grove shape but most of these are more like Baker's Arborvitae, only a little broader and many are like the shape of Berckman's Golden. Since these are seedlings some will not come true to type.

4-6 inch, two-year seedlings	4.00	30.00
6-8 inch, two-year seedlings	6.00	50.00

Thuya Orientalis Excelsa. Broad and bushy, somewhat in shape of Berckman's Golden but good green color. Not so well known but one of the best compact arborvitae. This is one of the hardest variety of Oriental Arborvitae.

6-8 inch, 2-year cuttings, once transplanted	10.00
8-10 inch, 2-year cuttings, once transplanted	12.00
10-12 inch, 2-year cuttings, once transplanted	15.00

Thuya Orientalis Glauca (Blue - green Arborvitae). Similar to Rosedale but not so fine nor compact and do not burn out like Rosedale.

	Per 100	Per 1000
4-6 inch, cuttings, once transplanted ...	9.00	
6-8 inch, cuttings, once transplanted ...	11.00	
8-10 inch, cuttings, once transplanted ...	13.00	

Thuya Orientalis Ramsey's Hybrid. A fast growing Arborvitae, similar in outline to cypress with thread like foliage. It will stand the heat and drouth well and very valuable in the South.

9-12 inch, cuttings, once transplanted ...	17.00
12-18 inch, cuttings, once transplanted .	20.00

Thuya Orientalis Rosedale. This soft, bluish Arborvitae is subject to the attack of aphis, but wherever they do well this is one of the most beautiful arborvitae.

4-6 inch, cuttings, once transplanted ...	7.00	60.00
6-8 inch, cuttings, once transplanted ...	10.00	80.00
8-10 inch, 2-year, bushy	15.00	

Thuya Orientalis Texana Glauca. In outline of growth and color, this is similar to Arizona cypress, making strong center shoot and quick grower. Where Arizona cypress does not do well, this will take its place and really better because this will not grow as large as Arizona cypress and transplant far better.

6-8 inch, cuttings, once transplanted ...	10.00	90.00
8-12 inch, cuttings, once transplanted ...	12.00	110.00
*15-18 inch, field grown	20.00	
*18-24 inch, field grown	25.00	

LINING OUT SIZE NANDINA

LINING OUT BROAD-LEAVED EVERGREENS

Plants under this heading will be lifted with almost entire root system intact, puddled immediately in thick mud and packed in moss, except where noted B. & B., which means balled and burlapped.

Items marked with * and bold type letters are what we call "Junior Specimen Size," which can be shipped safely with puddled roots, yet large enough for landscape work or general retail business because they are sturdy field grown, twice or more times transplanted stock. Florists who have limited growing ground will do well to plant them for only one year before offering them as regular specimen B&B plants.

Per 100 Per 1000

Abelia Grandiflora. Pinkish white flowers bloom all summer long, with small glossy evergreen leaves, makes this shrub one of the most desirable specimen or hedge plants. The demand for this plant is growing larger every year. We have

many thousands of better and bushier stock than we ever offered before.

	Per 100	Per 1000
8-12 inch, cuttings, field grown.....	7.00	60.00
12-15 inch, cuttings, field grown.....	9.00	80.00
15-18 inch, cuttings, field grown.....	11.00	100.00
18-24 inch, bushy, 2-year, field grown	15.00	130.00

Azalea Amoena. Very hardy small leaved Azalea with purple-red double flowers.

Azalea Kaempferi. Another very hardy Azalea with large pink and red flowers and fast and large growing bush highly prized in eastern states.

Azalea Macrantha. Very compact growing plant with small leaves, blooming one of latest, usually in last of May and June on Gulf Coast.

Azalea Yayegiri. Flame red, hose-in-hose type of good size flowers which will literally cover the plants. Good upright grower. One of first to bloom.

Prices of four above hardy Japanese Azalea, for spring of 1931 delivery. (Cannot ship before March, 1931).

3-5 inch, transplanted in frames to be shipped with small ball of earth in spring	11.00	100.00
---	-------	--------

Azalea Hinodegiri. Compact growing dwarf Azalea with mass of scarlet flowers in early spring, doing well as far north as coast of New Jersey. The demand for this azalea as pot plant is increasing very rapidly.

3-5 inch, bushy, transplanted in frames to be shipped with small ball of earth in spring of 1931.....	12.00	110.00
---	-------	--------

Azalea Indica. Single flowering, large growing kinds which are hardy on coast of North Carolina. We have most of commercial sort, in White, Light Pink, Dark Pink, Lilac-Pink, Deep Red, Orange Red and Variegated.

Azalea Indica of small sizes do not stand the frost of but a few degrees that we carry small plants in frames first winter and make the delivery after all danger of frost is over, with small ball of earth around each plant. Named varieties in all colors for spring delivery.

	Per 100	Per 1000
4-6 inch, branched	12.00	110.00
6-8 inch, branched	15.00	140.00

Barberry Atrocarpa (Barberry Sargentii).

Compact growing shrub so well adapted for foundation planting and this is one of a few of the Barberries which is at home in lower South. Numerous golden yellow flowers in early spring.

4-6 inch, cuttings, once transplanted....	6.00	50.00
6-8 inch, cuttings, once transplanted....	9.00	80.00
8-10 inch, 2-year cuttings, transplanted	12.00	110.00

Bignonia Speciosa. An evergreen vine with glossy, compound leaves, bearing numerous large size purple flowers in spring. Not hardy except in lower South.

8-12 inch, cuttings, once transplanted....	10.00
*12-15 inch, cuttings, once transplanted	12.00

Buxus Japonica (Japanese Box). This is far better substitute for old time Boxwood (Buxus Sempervirens) which do not do well in lower south and dreadfully slow grower. This Japanese Box will withstand full sun on Gulf Coast, making three times more growth, with more roundish lighter green colored leaves. Makes splendid trimmed specimen but untrimmed, they will make ideal plants for foundation planting.

3-5 inch, cuttings, once transplanted....	5.00	40.00
5-8 inch, cuttings, once transplanted....	7.00	60.00

Camellia Japonica. Waxy leaf, mid-winter flowering Camellia needs no description. We grow only double flowering choice kinds which we offer them under color

of White, Pink, Red and Variegated. All our plants were grown from cuttings and no seedlings offered. For larger plants, see under Specimen.

	Per 100	Per 1000
*10-12 inch, B&B	35.00	
*12-15 inch, B&B	45.00	

Camellia Sasanqua. Similar to *Camellia Japonica* but more of shrubby effect, growing faster, freer from scale injury, and bloom in October and November. We offer one named variety, *Mine-no-yuki*, which is double snow white flowers similar to carnation.

Price of *Mine-no-yuki*:

3-5 inch, cuttings, now ready.....	7.00	60.00
6-8 inch, cuttings, one transplanted....	12.00	100.00
8-12 inch, Cuttings, once transplanted....	15.00	120.00
*12-15 inch, cuttings, once transplanted	20.00	180.00

Camellia Thea (Tea Plant). This compact growing evergreen shrub is not known widely but has many desirable qualities. Sweet scented flowers in late fall.

4-6 inch, seedlings	3.00	25.00
6-8 inch, seedlings	4.00	35.00
8-12 inch, seedlings	6.00	50.00

Cleyara Japonica. Has thick, glossy leaves which turn red before dropping off. New growth is brown and quite hardy, withstanding cold of Atlanta or further north. Very desirable small size tree in any garden.

4-6 inch, cuttings, once transplanted....	10.00
6-8 inch, cuttings, once transplanted....	15.00

Cotoneaster Panosa. Only a few *Cotoneaster* do well in South, but this is one of them. A beautiful shrub with slender branches clothed with small green leaves which are silvery white beneath.

6-8 inch, from beds	5.00	40.00
8-10 inch, from beds	8.00	70.00
*12-18 inch, bushy, field grown.....	20.00	
*18-24 inch, bushy, field grown	25.00	

Cotoneaster Franchetti. Similar to above but leaves are brighter green and do not have silvery coat. Nice compact grower.

	Per 100	Per 1000
6-8 inch, from seed bed	5.00	40.00
10-15 inch, 2-year	8.00	70.00
*12-18 inch, bushy, field grown.....	20.00	

Eleagnus Pungen Reflexa. Compact growing Eleagnus of bronze color. These little plants we are offering are very nice bushy plants with many branches.

6-8 inch, cuttings, once transplanted....	10.00
8-10 inch, cuttings, once transplanted....	12.00

Elaeagnus Pungen Variegata (Variegated Russian Olive). Hardy compact growing shrub succeeding in wide range of country. Beautiful variegation will not be affected by sun nor winter and quite valuable plant. We can furnish in both gold and silver variegated.

4-6 inch, once transplanted.....	12.00
6-8 inch, once transplanted.....	17.00

Euonymus Carrieri. Low growing shrub with shiny green leaves turning bronze during winter. Extremely free from insects and diseases and ideal plants for border, doing well under the sun or in shade.

8-12 inch, cuttings, once transplanted .	6.00	50.00
12-18 inch, cuttings, once transplanted	8.00	60.00

Euonymus Kewensis. Thread like vines clothed with tiny leaves, making very nice plants for ground cover, etc.

4-6 inch, cuttings, once transplanted ...	6.00	50.00
6-8 inch, cuttings, once transplanted....	8.00	70.00

Feijoa Sellowiana (Pineapple Guava).

Compact growing medium size shrub with green leaves with silvery white underneath. Native of South America and can stand the temperature of about 8 degrees above. Very peculiar and beautiful

purplish flowers add so much more charm to this plant.

	Per 100	Per 1000
4-6 inch, seedlings, once transplanted	8.00	
6-8 inch, seedlings, once transplanted	10.00	

Gardenia Florida. The demand for this sweet scented flower is growing all the time.

8-12 inch, cuttings, once transplanted	7.00	60.00
12-18 inch, cuttings, once transplanted	10.00	90.00

Gardenia Radicans (Dwarf Cape Jasmine).

Miniature Cape Jasmine with leaves about $\frac{1}{4}$ inch wide and one inch long. Pure white waxy flowers are identical with larger Cape Jasmine but only the size of one dollar silver. Growth is decidedly spreading, rarely getting taller than one foot high and ideal for planting in front of border or as pot plants. Our plants have white variegated leaves and even without flowers they are beautiful foliage plants. All sizes we are offering this year are very bushy compact plants.

6-8 inch, cuttings, once transplanted	8.00	70.00
8-10 inch, cuttings, once transplanted	10.00	90.00

Ilex Cornuta (Chinese Holly). Dark green leaves with strong spines look like waxed. Perfectly at home in lower south, and bear red berries. The showest Holly in the South but the supply is very scarce. We are offering plants grown from bearing stock plants, but can supply some plants grown by cuttings of none bearing kind (these may bear later on) at half price.

3 inch pot plants, 6 inches or better 35.00

Ilex Cassina Angustifolio. The plants are like Dahoon Holly but with very narrow leaves of about 2 to 3 inches long. Evergreen and bear berries more than any other Holly we know of, hardly failing to set berries any year. What

we are offering are cuttings taken from bearing plants.

	Per 100	Per 1000
6-8 inch, cuttings, once transplanted....	12.00	
8-12 inch, cuttings, once transplanted....	15.00	

Ilex Crenata (Ink Berry). Small leaved dwarf shrub withstanding the winter of New Jersey and quite at home on Gulf Coast. Berry is black but plants are very hardy and attractive. All what we are offering are cutting grown from berry bearing plants.

3-5 inch, cuttings, once transplanted....	7.00
---	------

Ilex Crenata Rotundifolia (Round Leaved Holly). Similar to above but with leaves of darker green which are larger and round, somewhat like boxwood. One of the best plants for foundation planting, being semi-dwarf grower. What we are offering are plants with several branches.

4-6 inch, cuttings, once transplanted....	8.00	70.00
6-8 inch, cuttings, once transplanted....	12.50	110.00
8-10 inch, cuttings, once transplanted....	15.00	

Ilex Opaca (American Holly). Well known native plant of high decorative value more appreciated in recent years. Cuttings were taken from good bearing specimen.

6-8 inch, cuttings, once transplanted....	12.00
8-12 inch, cuttings, once transplanted....	15.00
12-15 inch, cuttings, once transplanted....	20.00

Ilex Opaca Seedlings. These are seedlings so that we cannot depend on every one of them to bear, but offering to those who want cheaper stock.

4-6 inch, from seed beds	5.00	40.00
6-8 inch, from seed beds	6.00	50.00

Ilex Vomitoria (Yaupon). Native of southern United States with small bright red berries, succeeding in wide range of country.

	Per 100	Per 1000
2-4 inch, from seed beds.....	3.00	25.00
4-6 inch, from seed beds.....	4.00	
6-8 inch, from seed beds.....	5.00	
Ilex Vomitoria Femina. These are berry bearing Youpon and most of our little plants are well branched.		
4-6 inch, cuttings, once transplanted ...	10.00	
6-10 inch, cuttings, once transplanted....	15.00	
Jasimum Floridum. Semi-erect Jasmine with dark green leaves and hardy as far north as Long Island. Sweet scented yellow flowers are produced quite freely.		
6-8 inch, cuttings, once transplanted ...	6.00	
8-12 inch, cuttings, once transplanted ...	8.00	
Jasimum Primullinum (Primrose Jasmine). Graceful half elect evergreen with yellow Jasmine flowers. Excellent for foundation planting between more stiff plants.		
8-10 inch, cuttings, once transplanted ...	5.00	40.00
*2-3 feet, bushy, field grown	15.00	
Laurus Nobilis (Grecian Bay). Noted by its aromatic leaves which is often used for cooking. Splendid plants in lower south but cannot stand much of freeze.		
4-6 inch, cuttings, once transplanted....	8.00	
6-8 inch, cuttings, once transplanted....	10.00	
Laurus Officinale (English Laurel). Shrub of medium height with large waxy leaves. Hardy in Tennessee and do splendidly in Gulf Coast. One of the most valuable broad leaved evergreen for almost entire south.

4-6 inch, cuttings, once transplanted....	8.00	70.00
6-8 inch, cuttings, once transplanted....	12.00	110.00
Lauruscerasus Carolinana (Cherry Laurel). Our Native evergreen shrub or small trees, remarkably free from attack of insects or diseases. Makes very nice specimen or hedge plant.		

	Per 100	Per 1000
6-8 inch, seedlings, 2 year.....	3.00	25.00
10-15 inch, seedlings, 2 year.....	7.00	60.00

Ligustrum Japonicum. Fast growing evergreen Ligustrum of small size trees. Can be trained into bush or tree forms and useful as screen planting.

6-8 inch, two-year seedlings	2.50	22.00
8-12 inch, two-year seedlings.....	3.50	32.00
12-18 inch, two-year seedlings.....	5.00	
*18-24 inch, bushy, field grown.....	20.00	

Ligustrum Delavayanum and Ligustrum Ionandrum. Both of these are recent introductions by government, both having small evergreen leaves of about Abelia size, quite bushy and dwarfish grower. Said to be quite hardy and worthy of careful trial in southern half of United States.

6-8 inch, cuttings, once transplanted....	8.00
8-10 inch, cuttings, once transplanted....	10.00

Prices of Ligustrum Ciliatum Variegatum, Ligustrum Henrii, Ligustrum Lucidum Compactum, Ligustrum L. Pyramidalis,

Ligustrum L. Repanda:

4-6 inch, rooted cuttings, now ready....	3.00	25.00
5-8 inch, cuttings, once transplanted....	5.50	45.00
8-12 inch, cuttings, once transplanted....	7.50	65.00
12-15 inch, cuttings, once transplanted ..	9.00	80.00
*12-18 inch, field grown, bushy.....	15.00	140.00
*18-24 inch, field grown, bushy.....	20.00	180.00

Ligustrum Ciliatum Variegatum (Ligustrum Nepalense Variegatum). Compact growing shrub with small roundish leaves which are faintly blotched. Good addition to our Ligustrum.

Ligustrum Henrii. Dark green glossy leaves are no larger than your finger nail and will make ideal sheared plants. Not so well known yet but have wide adaptability.

Ligustrum Lucidum Compactum (Wax-leaf Privet). Under this name many plants are offered, including seedlings which do not come true, but what we are offering are dwarf growing shrubs with very thick weavy leaves of extremely glossy surface. One of the most satisfactory plants for general planting, being free from attack of insects and diseases and fast grower, doing well in most adverse conditions. Our plants are well pinched back, having many branches and last two grades can be used for landscape work.

Ligustrum Lucidum Pyramidalis (Upright Wax-Leaf Privet). Leaves are rather pointed and not quite as thick as Lucidum, and the growth is decidedly upright. For corner of house, between windows and as background planting, this is indispensable.

Ligustrum Lucidum Repanda (Crinkle Leaved Privet). Shiny narrow leaves are crinkled and growth is upright, making quite distinguished looking plant.

Ligustrum Ovalifolium Aureum. (Golden California Privet. Golden variegated leaves of this almost evergreen shrub is quite attractive among other evergreens.

6-8 inch, cuttings, once transplanted....	12.00	110.00
8-12 inch, cuttings, once transplanted....	15.00	
Magnolia Glauca (White Bay). A noble native tree doing well as far north as New England states. Since this plant has fine fibrous root system, makes a very good under-stock for grafting more expensive Magnolias.		
3-5 inch, from seed beds	5.00	40.00
5-8 inch, from seed beds	6.00	50.00
8-12 inch, from seed beds	8.00	70.00

Magnolia Grandiflora. Our noble native tree well adapted to southern half of United States. Demand for this tree is bound to increase from year to year.

3-5 inch, from seed beds..... 5.00

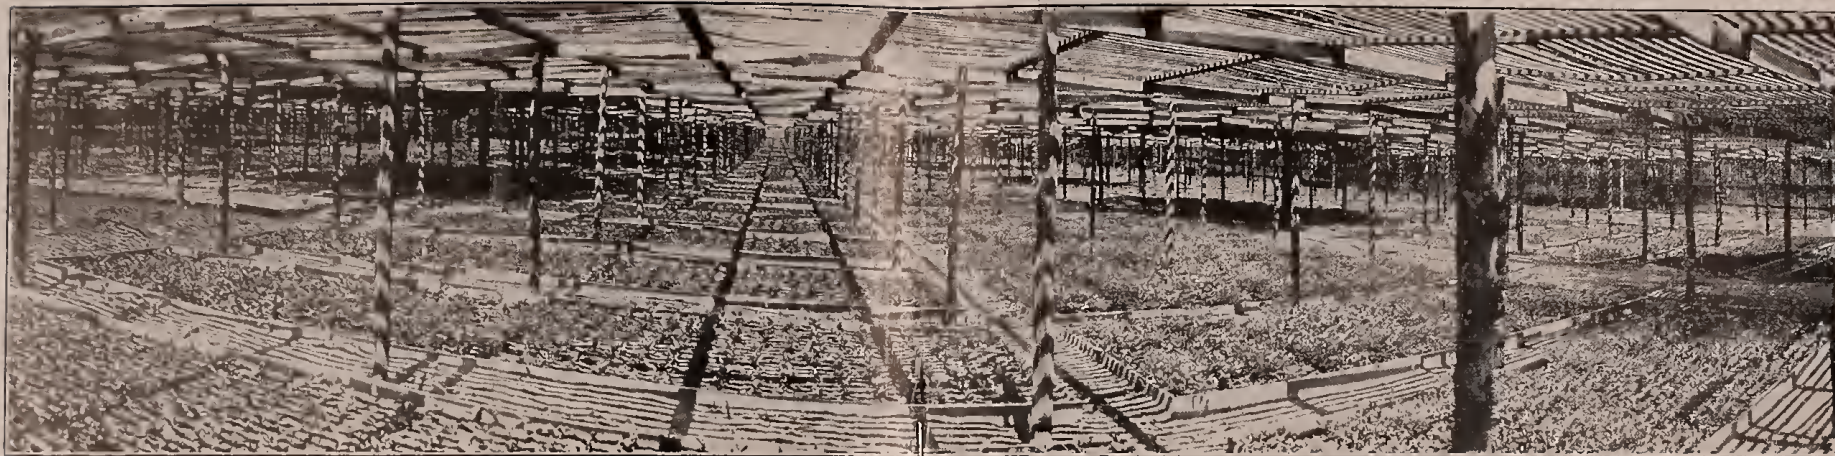

Malpighia Glabra (Barbados Cherry).

Compact growing dwarf evergreen with small size pink flower similar to Crape Myrtle followed by red berries. Not hardy but when killed back by frost they will send new shoots and bloom same summer.

4-6 inch, cuttings, once transplanted....	6.00	50.00
6-8 inch, cuttings, once transplanted....	9.00	
8-10 inch, cuttings, once transplanted....	13.00	

Nandina Domestica (Japanese Nandina).

Nandina is appreciated more highly in winter than any other time, when in its winter dress of red leaves and clusters of scarlet berries. This is a great advantage over many plants which are pretty in summer but may not look good in winter when we sell our plants, but Nandina in full dress will sell at sight. No wonder the demand exceeded supply and those who stock up with young Nandina will reap rich harvest. Measurement of our Nandina this year is taken by natural height of plants, including leaves

VIEW SHOWING ABOUT ONE-HALF MILLION CHOICE EVERGREENS GROWING IN LATH HOUSE

An Invitation

We cordially invite you to visit us at any time. It would be a great pleasure to personally conduct you through our nursery.

T. Kiyono.

ONE OF THE FIELD VIEWS (ROWS ARE QUARTER MILE LONG)

which is general custom of grading Nandina by almost all nurserymen of this country.

18-24 inch height	15.00

Sabal Palmetto (Cabbage Palmetto). Hardy native palm of great worth where hardiness is first consideration. Succeeds as far north as Cape Hatteras on Atlantic.

15-18 inch, 4-year-old	5.00	40.00
18-24 inch. 4-year-old	6.00	50.00

BLOCK OF BERCKMAN'S GOLDEN ARBORVITAE
SPECIMEN CONIFEROUS EVERGREENS

Under this heading we offer more than two or three times transplanted, field grown Conifers of symmetrical shape, many of them being staked, sheared or pinched. At prices quoted, all of them are balled and burlapped. On account of frequent transplanting and nature of our soil, however, all our plants have abundant fibrous roots and transplant well without being balled, for sizes of less than 2-3 feet, and should they be wanted without ball, we deduct 25c each on 2-3 feet and 15c each for less than 2 feet size.

For carload orders, where we can put in balled and burlapped plants without boxing them, or when you send your truck to our nursery grounds so that we do not have to crate them, we will deduct 15% from prices of both Coniferous and Broad-leaved Specimen plants, but this discount will not apply to lining out sizes quoted separately.

Balled and Burlapped Vs. Bare Root Puddled

If you have to entrust your digging to careless help without doubt, B&B is safer way of handling plants than bare roots. On the other hand, we can save much more root system when we dig with bare roots than balling, and

handled carefully, there is no danger of roots drying out before packing.

Bare root stock carefully dug, packed and shipped by express often do much better and far cheaper than B&B stock shipped by freight in less than carload lots. Whether B&B or bare roots, we will deliver our plants to you with original moisture on their roots.

SPECIMEN BROAD-LEAVED EVERGREENS

ABELIA, 2-3 FEET

WAX PRIVET, 2-3 FEET

Plants listed under this heading are all more than twice transplanted, field grown, bushy and compact specimen, most of them pinched back several times. Many of them will transplant well without ball, especially when they are slightly cut back, and for bare rooted plants we make reduction of 25c each for 2-3 feet and 15c each for less than 2 feet. We realize more than ever the importance of low headed bushy broad-leaved evergreens that we sheared and pinched so many times they are as compact as they can be. As mentioned under heading of "Specimen Conifers," we deduct 15% on B&B plants, when you order in carload lot or send your truck to our grounds.

Abelia Grandiflora.

	Per 10
18-24 inch, cut back, bushy, B&B	3.00
2-3 feet, cut back, bushy, B&B	4.00
3-4 feet, cut back, bushy, B&B	5.00
Bare rooted at half price.	

Azalea Hinodegiri.

6-8 inch, with a few flower buds, B&B	3.50
8-10 inch, B&B	7.50
10-12 inch, B&B	10.00

Azalea Indica. We carry almost all commercial varieties in many colors. Most of these plants will have a few flowers in spring of 1931.

	Per 10
8-10 inch, B&B	4.50
10-12 inch, B&B	6.00

Azalea Kaempferi.

18-24 inch, sheared but not shaped, B&B	10.00
2-3 feet, sheared but not shaped, B&B	12.50

Camellia Japonica (All double flowering kind).

18-24 inch, B&B	20.00
24-30 inch, B&B	25.00
30-36 inch, B&B	30.00

Camellia Sasanqua. We offer for the first time to trade, seedling *Camellia Sasanqua* of compact growing type. Leaves are much smaller than *C. Japonica*, and more compact, graceful and faster grower. Since these are seedlings, we cannot tell what color flower they will bloom, but most of them are white with yellow anthers, and some pink and red. They bloom in October and November and great addition to the list of present broad-leaved evergreens which we need so badly in lower south.

18-24 inch, bushy, B&B	7.50
2-3 feet, bushy, B&B	10.00
3-4 feet, bushy, B&B	15.00
